Clocking In and Out

Clocking In and Out

Your timesheet and the home screen allow you to record the start and stop times of your work day. Your organization may require you to “clock in” and “clock out” at the beginning and end of each day as well as for meals and other breaks to ensure that you are paid accurately for time worked.

Clocking in and out from your timesheet

- 1 Select **Show Menu**, select **My Account > My Timesheet > My Current Timesheet**.
 - 2 If you allocate your time to different departments or jobs, you may need to clock into a cost center other than your default cost center. Select **Cost Center** dropdown menu.
- NOTE:** This button may be worded differently depending on your company’s preferences.
- 3 Choose the applicable cost center/department.
 - 4 If you are using your default department to clock in, Select the **Clock** button. Your punch is saved automatically.
 - 5 In the **From** field in your timesheet, confirm the in-punch is recorded.
 - 6 To clock out, select the **Clock** button. Your punch is saved automatically.
 - 7 A confirmation message appears when you clock in/out or change cost centers.
