Introduction

This document is intended as a comprehensive resource for the payroll section of the system. Some things you should note about this document:

- Any time you see an item marked in **bold** it means it is a button or option to select.
- Tables below large screen shots are there to describe the various options in the screen shot above (which normally have a bold rectangle around them).
- Anything in *italics* is the name of the window you are viewing.
- If you ever see this popup below, it means you have not saved your work. Select cancel, save your work, and then you won't get that popup and can continue through the system.

Employee Tax Setup

Tax Options: Federal

The system default for Federal taxes is set to single with zero exemptions.

1. Select the **Hamburger Menu** (highlighted below).

2. Select the **My Employees** option.

- 4. Select the kicon next to the employee you want to set up from the employee list.
- 5. Select the **Payroll Tab**.

Payroll Tab

- 6. Scroll down to the Tax Information pane.
- 7. Select the **Federal Tab** (if not already selected).
- 8. In the pane, shown below, enter the new **Filing Status**, **# of Allowances**, and **From** date. *Allowances are commonly referred to as exemptions.*
- 9. If an employee has additional withholdings enter this number in the additional withholding section.

The number of allowances changes how many people you are claiming. Additional withholding is additional money you want withdrawn from your check each pay period.

10. Select the **Save** button on the top right corner to save your work.

Tax Options: State Tax Allowance Changes

Like Federal, the system default for new hire employees' State taxes is set to single with zero allowances (exemptions). If allowance changes are required, i.e., someone gets married, divorced, has a child, etc., these are the steps you would take to make those adjustments.

1. Select the Hamburger Menu (highlighted below).

State Reciprocity Override

The default is set to Enforce Reciprocity. However, several settings will override reciprocity rules.

Option	Explanation
Enforce	The tax engine calculates the correct taxes.
Reciprocity	
Resident Only	If this option is selected, only the Resident state income tax is withheld.

Non-Resident Only	If this option is selected, only Non- Resident state income tax is withheld.
Zero in Both	If this option is selected, there will be no state income tax withheld for both Resident and Non- Resident states.
Full	If this option is selected, then state income tax is withheld in both the Resident and Non- Resident states.
Diff	The greater of the difference in state income tax (SIT) withholding is withheld based on calculated SIT. For example, an employee lives in MO but works in IL. MO SIT calculates at \$100 and IL SIT calculates at \$75. In this case, \$25 would be withheld in MO SIT and \$75 in IL SIT.

7. Select the **Save** button on the top right corner to save your work.

View W2 Forms

All W2s that have been prepared for each employee and tax year are available for your review.

1. Select the Hamburger Menu (highlighted below).

2. Select the My Employees option.

3. Select Forms, and then W2s option.
